San Antonio Carnival a Big Theosophical Lecturer Says Arizona Legislators Wish There Is No Difference; Illustrates Theory.

"To sleep and to die," was the subject of a lecture delivered at the Congregational church, corner Williams and Rio Grande streets, last evening by Miss Annie C. McQueen, of New York, who is now in El Paso as the guest of the Theosophical society.

Miss McQueen maintains that sleep slid death are the same, except that at the moment of death a magnetic cond, which is visible to the more sensitive evenight, is snapped and the entity in his subtle or astrat body is entirely freed from that mass of flesh and hope and nerves called a physical body.

Perhaps Adam thought that he was dying, after that first day in the Garden of Eden, when he felt a strange stupor stealing over him and renificed that he was losing his hold upon consciousness. Institutions Investitigated First.

Phoenix, Arit., April 26.-Unless the senate objects, each Arizona state institution will be investigated by a committee before any general appropria-tions bill is even presented to the house.

Aside from the passage of a bill appropriating \$25,000 for the expenses of the extra session, the adoption by the house of an investigation resolution is

for investigating the state institutions. Chairman Powers claimed to have meanly all the data necessary to draw intelligently a general appropriations bill, but Christy and several others seemed to doubt his word. Powers thought, however, that it would be a good idea to have a single committee composed of two members from the house and one from the senate visit the institutions, such as the prison, the industrial school, university and normal schools.

There was a great deal of opposition to this at the start. Members thought that one committees should not do all the junketing. Then a concurrent resolution was introduced, providing for separate committees. With at least six committees in sight, everybody saw a chance to get one, and the resolution was adopted by a vote of 18 to 9. But the senate had already adjourned for the day, so the committees, if the upper house adopts the resolution, will not be appointed by the president and speaker till some time this week.

No general report was made by the appropriations committee augusting an investigating committee, or committees. In fact, several members disagreed with chairman Powers about the neces-

clitics of the state surging them not only to lend their sid to the proposition, but to call a conference of the different manufacturers of their respective communities and lay before them the proposition.

PHOENIX MAY GET JOINT
CITY HALL AND COURT HOUSE.
Phoenix, Ariz. April 26.—First steps toward securing a bint city hall and county court house in Phoenix have been taken by the city commission. The commissioners employed an architect to draw olans for such a building. When the plans are completed a construction company will be asked to make an offer to construct the building, lease it to the city and county for 15 years, and then sell it to them for a nominal figure. It is understood that a certain company has asked for an opportunity to make a reasonable proposition along that line.
